

Aussie grain supplies and logistics

Lloyd George

Ag Scientia

GIAV & SFMA meeting

Moama meeting July 13, 2022

A season with a bit of everything

- Record large harvest
- Likely record exports
- Wet harvest and quality issues
- Ukraine war
- Record prices global prices
- Logistical constraints
- COVID
- Another 30 Mt plus wheat crop on the way?

Record harvest

- Record yields in WA, another massive east coast crop
- Wheat, barley and canola prices fall against global benchmarks to shift crop
- Focus turns to logistics and managing price risk on massive harvest
- Record large grain supplies complicated by wet harvest in NSW which leads to large quality downgrading
 - 40-50% of NSW wheat downgraded to feed quality
 - 45% of the WA wheat low pro ASW
- Below average harvest quality
- Large quality spreads
- Attracts export demand

Australia - Wheat, barley and canola production (kt)

Record export pace

Big crops require large exports

Either larger exports to existing customers
Larger exports into more distant markets

Wheat

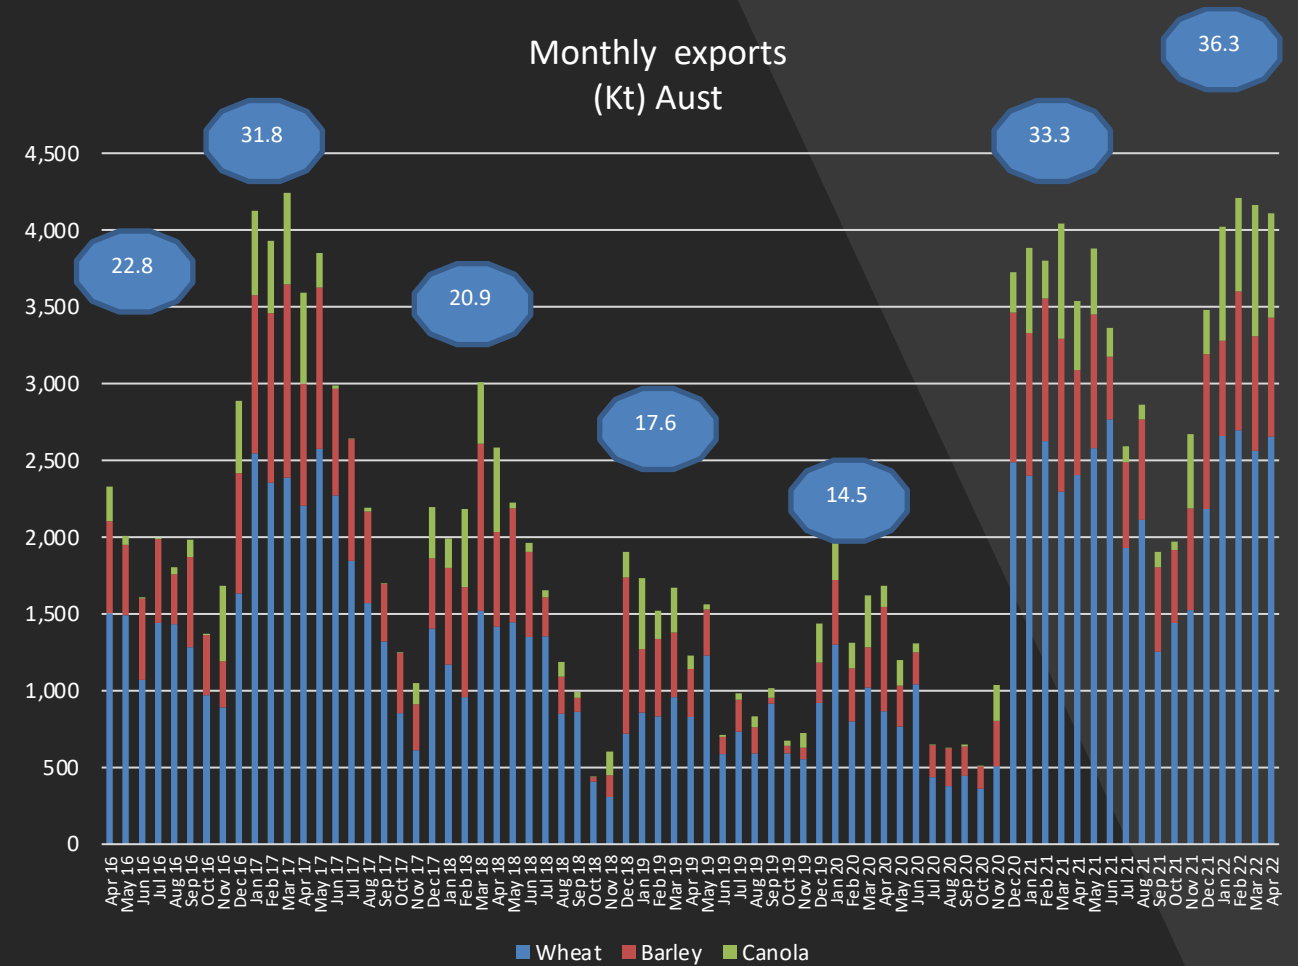

Oct/May exports 18.1 Mt
+2.6 Mt on LY...+15%
Most increase on east coast
China exports +1.2 Mt at 4.2 Mt

Barley

Oct/Apr exports 5.9 Mt
+0.2 Mt on LY...+4%
Saudi exports down 15% LY, Japan, Phil, Mex, Jordan up

Canola

Oct/Apr exports 4.3 Mt
+1.3 Mt on LY...+45%
Helped by Canadian drought

Logistics & port capacities

Difficult year for grain logistics & logistics personal

Shipping stem booked out early in all states on forecast bumper harvest

Strong export demand / sales, export capacity fully committed and operationally stretched, no room for problems

Major container exports difficulties continue

Rail problems

Weather & floods major problem in NSW – main Pt Kembla line out for months after Feb

Exacerbated by truck shortages & rocketing road rates

Covid also creating staffing issues in both rail and road transport

Shipping delays leading to hefty demurrage bills – US\$36k/day x 20 = \$0.72 mill

New export capacity eases pain

Luck Bay, Adelaide (200-250kt/month)

Bunge Bunbury (60-150kt/month)

Riordan Geelong Portland (80-150kt/month)

Quatro Kembla, NAT (200-300kt/month)

QBT Brisbane (50-60kt month)

More planned for SA

Average vessel waiting time (days) April 2022 – source GTA

Let's not be too tough

Oct/May wheat exports by port

Australia wheat, barley & canola exports (kt)

State wheat, barley, canola exports (kt)

Oct/May exports by state
